## CATALOGUE

### 2015

*At VERMEC we don't just sell– we look after our customer and provide reliable after sales service and technical support*

This catalogue features products designed and manufactured by

**VERMEC**   
Queensland Australia

**Vermec**, based at Kippa-Ring, 30 minutes north of Brisbane, Queensland, Australia, not only sell a large range of woodworking supplies in our Retail store but also have an Engineering workshop where we design, develop and manufacture our own range of innovative woodworking tools and accessories.

Started in 1997, **Vermec** is a family owned business operated by husband and wife, Enzo and Yvonne Verrecchia. Enzo Verrecchia has over 43 years experience as a Mechanical Engineer. He did his apprenticeship and worked in a variety of metal engineering positions in Switzerland then moved to Australia where he became involved in the production of woodworking equipment. With over 14 years experience working in the production of woodworking equipment designing, developing and producing woodturning lathes, chucks and accessories, Enzo then ventured into his own business that became **Vermec**. Yvonne, who also trained and worked in Switzerland, with a background in Engineering and Drafting, is also very involved with production as well as sales.

**Vermec** work closely with a number of experienced and world-renowned wood turners, who test our prototypes and provide feedback which is then implemented. **Vermec** are always receptive to the requests and suggestions of end-users in the development and refinement of our range of products, which are made of the highest quality workmanship and materials.

## Carving Mount

Multi-position mounting for carving  
 Can be rotated to almost any position  
 Can be mounted on lathe bed or bench

*Please specify thread size required and lathe bed gap*

**ACC-075 RRP \$290.00**

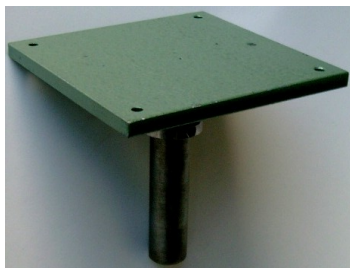

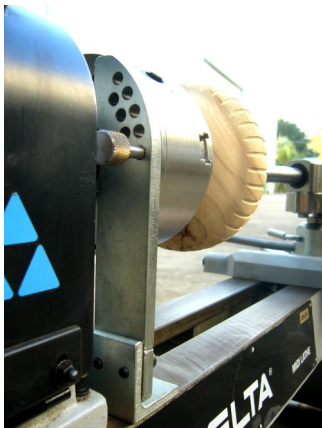

## Indexing Attachment - Indexing on MOST lathes

To suit most lathes. The indexing plate will suit Vicmarc, Bonham and Nova chucks. Outer ring has 36 holes, Inner ring has 24 holes. The locating pin has 4 hole spacings on the bracket to allow multiplied spacing without moving the item on the chuck.

Has from 2 to 144 hole indexing options, and is used on the inboard. The indexing attachment is available in the spindle sizes - M30, M33, 1 1/4"x8, 1"x10, 1"x8, and 3/4"x16-

*Please specify when ordering Centre height, Bed gap and spindle size.*

**ACC-285 - RRP \$237.00**

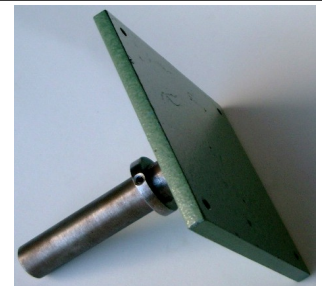

## Camlock Table

This table can be used to mount your own timber top to use in conjunction with the router attachment.

Camlock Table with Collar 150x150mm

*Please specify Post Diameter.*

**ACC-050 - RRP \$ 65.00**

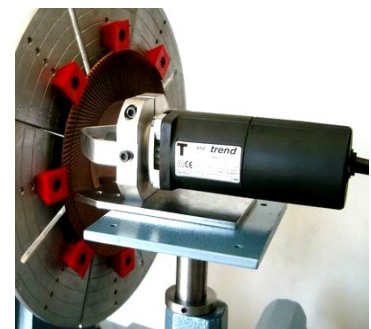

## Router Holder

With fine adjustment.

To be used in conjunction with the indexing attachment for decorative work. (Router not included). Available in Bore 42mm and 65mm

**ACC-287 - 42mm RRP \$150.00**

**ACC-288 - 65mm RRP \$165.00**

## Sphere Cutting Jig

### Create perfect spheres every time

The jig can be used on most lathes with centre heights between 125mm and 300mm.

Can be used **internally** and **externally**. **With Fine Adjustment.**

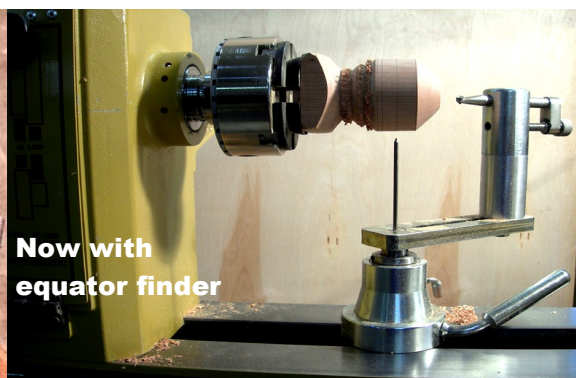

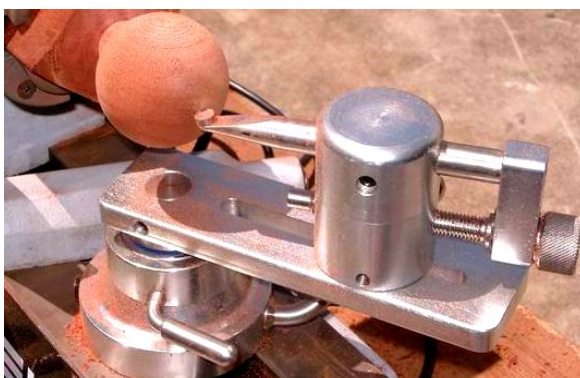

*Please provide lathe centre height and bed slot size*

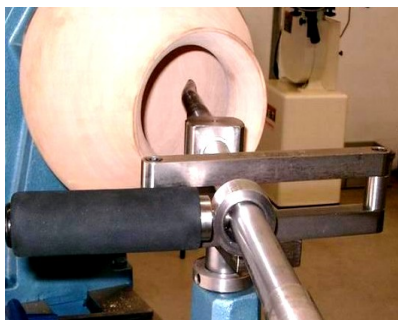

**ACC-370 - 125mm-150mm - RRP \$320.00**

**ACC-371 - 175mm-200mm - RRP \$330.00**

**ACC-372 - 250mm-310mm - RRP \$340.00**

| Type  | Centre Height | Diameter Range   |
|-------|---------------|------------------|
| Mini  | 125mm         | 10mm to 100mm    |
| Mini  | 150mm         | 10mm to 150mm    |
| Midi  | 175mm         | 10mm up to 130mm |
| Midi  | 200mm         | 10mm up to 180mm |
| Large | 250mm         | 10mm up to 190mm |
| Large | 310mm         | 10mm up to 280mm |

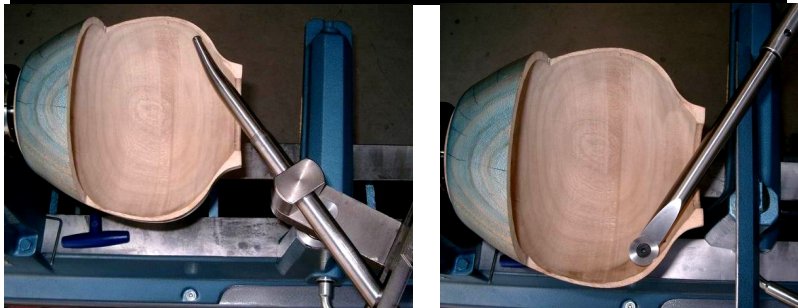

## Ultimate Deep Hollowing Set

Designed for **easy and safe** hollowing up to 350mm depth (14")  
**No clogging / No dig in. Quick setup.**  
 Can be used from either side of lathe (used on existing Camlock)

**CAN BE USED BOTH SIDES OF LATHE**

Set includes: Handle, Side Handle, Extension shaft, Tool holder, 10mm TC Cutter, and 25mm Shear Scraper

*Please provide post size required for your Camlock*

**WTT-050- RRP \$420.00**

*Note: Replacement cutters are available. See Multi-Purpose Chisel Set on Page 7*

## Ultimate Sanding Head

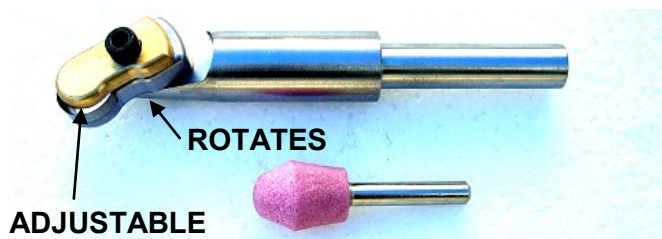

Available in Three sizes: 35mm, 50mm & 75mm  
 Used in Conjunction with the Vermec Ultimate Deep Hollowing Set  
 Makes sanding inside deep hollow vessels simple and safe  
 Uses Velcro-backed sandpaper in any grade for a perfect finish

**WTT-064 35mm RRP \$28.00**  
**WTT-065 50mm RRP \$30.00**  
**WTT-066 75mm RRP \$32.00**

## Deep Hollowing Ring Cutter

- ◆ Non Clogging
- ◆ Adjustable Cutter for various depths
- ◆ Cutter is able to rotate 90 degrees
- ◆ Includes Mounted Point for Sharpening HSS Cutter replaceable

**WTT-051 RRP \$142.00**

## Multi-Purpose Chisel Set

This versatile tool is made from stainless steel. The removable handle has an easy grip rubber finish and is loaded with lead shot which takes the shocks and gives it good balance.

The handle is bored to take a 12mm round shaft so that it can be used with any tool with the same size shaft, which includes most of the P&N range.

Easy and safe hollowing up to 175mm depth (7").

4 piece set

**WTT-001- RRP \$237.00 3 PEICE**

**WTT-002- RRP \$342.00 4 PEICE**

All parts can be replaced or bought separately as desired.

## Midi Deep Hollower

Ideal for Goblets, Pens, and alternative material such as Polycarbonate

Can be used internally and externally

Long-lasting Cutting Edge

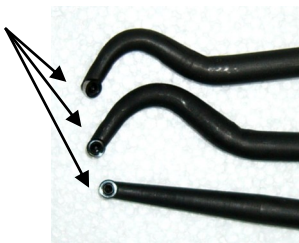

Easy and safe hollowing up to 125mm (5")

**WTT-060- RRP \$135.00**

8mm TC Cutter

6mm TC Cutters

## Mini Deep Hollower 3 piece set

Ideal for Goblets, Pens, and alternative material such as Polycarbonate

Can be used internally and externally

Long-lasting Cutting Edge

Easy and safe hollowing up to 85mm (3.5")

**3 Shafts with cutters & Handle**

**WTT-067- RRP \$310.00**

**3 Shafts with Cutters only**

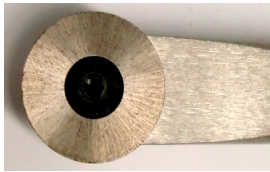

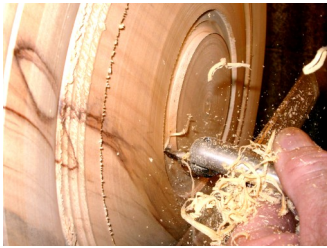

**WTT-068- RRP \$290.00**

**Each Shaft with Cutter**

**WTT-069- RRP \$126.00**

## Chuck Accessories

### Internal Mini Step Jaws

Used to hold small work by expanding into the recess or opening of your project . 3 step sizes are: 15mm, 20mm and 25mm. Suits Vermec, Vicmarc VM90 and VM100 Chucks, Grizzly Chucks, and other similar look-alike chucks.

**CHU-547 - RRP \$62.00**

Front Hold

Designed by- Amir Caccia

Back Hold

### V-Grip

**Bowl Jaw V-Grip Extension Set** is to be used in conjunction with the existing Bowl Jaws and it allows for an offset pickup distance. It can be used to re-chuck bowls that don't have a flat front allowing you to finish the base of the bowl. The Bowl Jaw V-Grip Extension Set includes eight (8) 35mm Extension Bushes, eight (8) PVC V-Grips and all screws necessary.

This set allows an extended pickup of 35mm from the face of the jaw and is made to suit all Bowl Jaw sizes. We also sell the PVC V-Grips separately for those who have the Bowl Jaw Extension set already (Bowl Jaws sold separately).

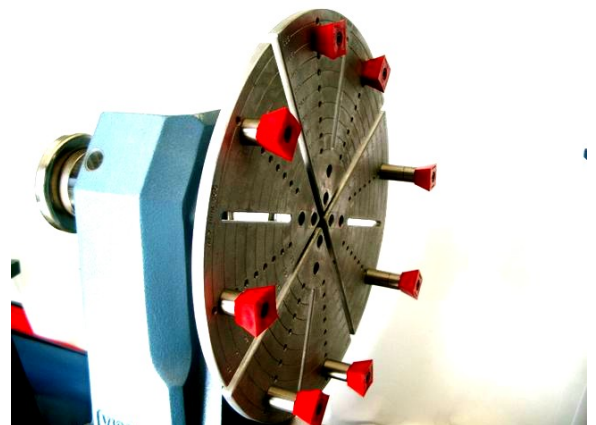

**CHU - 003 - RRP \$93.00**

Designed by - Len Mengel

### Bowl jaw Extension Set

Three different lengths bushes & screws (15mm, 35mm & 50mm) all included in the one set.

**CHU - 001 - RRP \$90.00**

## Chuck Accessories

### Multi Centre Chuck

Ideal for off centre turning up to 32mm. Pick up made for Vicmarc 90/100 and 120/140&150 Chuck.

Front Picture

**CHU-500 - RRP \$235.00**

**Replacement Screw CHU-892 - RRP \$16.00**

Designed by - Guilio Marcolongo

Back picture.

### Chuck Ball adaptor

Pick up made for Vicmarc 90/100 and 120/140&150 Chuck.

Ball adaptor sold separately.

**CHU-889 - RRP \$80.00**

Designed by - Guilio Marcolongo

### Screw Faceplate for Escoulen M30x2mm Ball

in conjunction with ball adaptor.

**CHU-891 - RRP \$70.00**

**Replacement Screw**

**CHU-892 - RRP \$16.00**

Designed by - Guilio Marcolongo

### Screw Faceplate with Chuck Pick up

Pick up made for Vicmarc 90/100 and 120/140&150 Chuck.

**CHU-890 - RRP \$70.00**

**Replacement Screw**

**CHU-892 - RRP \$16.00**

Designed by - Guilio Marcolongo

| ACC-115 | ER32 Collet set only 18 Piece                        | \$145.00  |

## Tailstock Swivel Attachment

The Tailstock Swivel Attachment can be used on a Vicmarc VL300 shortbed lathe and allows the tailstock to be swiveled out of the way when turning long objects or using long chisels without having to remove and refit the heavy tailstock. An added bonus is that it lengthens the lathe by 300mm (12").

**ACC-400 - RRP \$520.00**

## Spindle Extension

The Vermec Spindle Extension extends the Spindle out from the lathe by 60mm. This is especially useful on swivel head lathes, particularly when working on larger pieces, as it increases the gap between the item and the machine. Available in various thread sizes.

**ACC-380 - RRP \$68.00**

*Please quote thread size required*

## Spindle Adaptor

The Spindle Adaptor allows you to adapt thread sizes by having different thread sizes on each end. An example of this is you can fit an 1"x8tpi face-plate to an M30x3.5 threaded lathe spindle simply by using the adaptor. Different thread sizes available to suit your requirements.

**ACC-375 - RRP \$68.00**

*Please quote threads sizes required for both male and female threads*

## Forstner Bit Extension

Made from high tensile steel. 200mm in length, MT2 end, 3/8 hole (other sizes available).

**WTT-150 - RRP \$53.00**

*Note: Forstner Bit not included*

## Faceplates

**VERMEC manufacture a range of Faceplates that are the most versatile on the market**

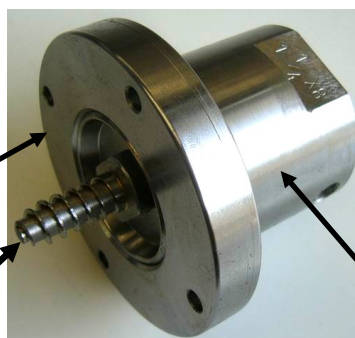

- Can be fitted to most thread sizes simply by changing the adaptor/insert
- Available in sizes from 75mm to 200mm, in increments of 25mm
- Can be purchased on their own or with an adaptor/insert
- Type of adaptor/insert you use will depend on your application
- Use as a standard Faceplate by fitting an insert, which are available in the most popular thread sizes
- Use as Screw Faceplate by using the Faceplate Screw Body, also available in the most popular thread sizes, and Faceplate Screw

75mm Faceplate - faceplates are exchangeable

### Use as a Screw Faceplate

Removable screw

Use with an Insert - available in most common thread sizes

Faceplate Screw Body - specify thread size required to suit lathe

Nova Bonham Insert

## Chuck Inserts

### • To suit Bonham, Nova and Vicmarc Chucks

- Designed to allow for easy fitting.
  - Many thread sizes available
- With flat sides for easy fitting and removal
- Also available Vermec Insert Spanner - see below

Vicmarc Insert

Insert to suit most lathes      **RRP \$43.00**  
 Left hand insert                **RRP \$43.00**  
 Special Thread insert        **RRP \$62.00**

*Please specify thread size & chuck type*

## Toolrests

Steel welded toolrests available to suit most lathes.

| Code    | Description                | RRP Price |
|---------|----------------------------|-----------|
| ACC-430 | Toolrest, 75mm             | \$48.00   |
| ACC-431 | Toolrest, 100mm            | \$52.00   |
| ACC-432 | Toolrest, 150mm            | \$55.00   |
| ACC-433 | Toolrest, 200mm            | \$62.00   |
| ACC-434 | Toolrest, 250mm            | \$65.00   |
| ACC-435 | Toolrest, 300mm            | \$68.00   |
| ACC-437 | Toolrest, 400mm            | \$75.00   |
| ACC-438 | Toolrest, 600mm (2 posts)  | \$92.00   |
| ACC-439 | Toolrest, 800mm (2 posts)  | \$105.00  |
| ACC-440 | Toolrest, 1000mm (2 posts) | \$125.00  |
| ACC-445 | Toolrest, S Shape          | \$90.00   |
| ACC-446 | Toolrest, Z Shape          | \$90.00   |
| ACC-450 | Post only for S/Z Toolrest | \$35.00   |

*Please state post diameter and post height required when ordering*

**Vermec "S" and "Z" Toolrests now available with removable post - you only need to change post to suit different lathes**  
*Posts can be purchased separately*

## Texturing Tool

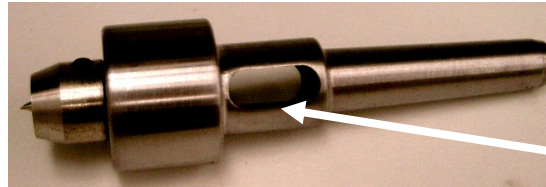

Fits the Vermec Deep Hollowing Handle or make your own handle.  
Roughs out surface for a textured finish.  
Made from Stainless Steel

**WTT-180 - RRP \$98.00**

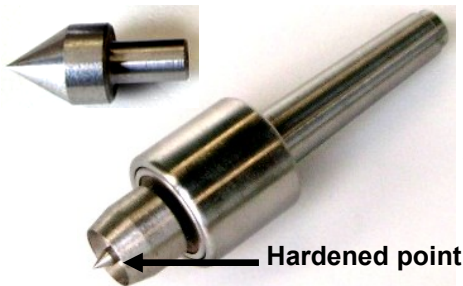

## Hollow Live Centre

Hollow Live Centre Morse Taper 2 with removable tip for drilling through Tailstock spindle. 10mm hole Hole through body allows shavings to fall away or be blown out with compressed air to avoid clogging.

**ACC-325 - RRP \$94.00**

Avoids clogging

## Heavy Duty Live Centre

Live Centre with **2 bearings**-making this a heavy duty centre. Available in Cup or Cone centre.

**ACC-320 - Cup Point - RRP \$66.00****ACC-322 - Cone Point - RRP \$66.00**

## 3 Inch Large Cone Live Centre

- ◆ Large Cone Live Centre
- ◆ MT2
- ◆ Supports work pieces up to 75mm
- ◆ Plated Steel Body and Aluminium Cone

**ACC - 323 - RRP \$100.00**

## 4 in 1 Live Centre

4 in 1 set includes 1 cup point( with hardened point, 1 large cone point, 1 small cone point, 1 extended small cone and MT2 body with 2 bearings. Points are quickly interchangeable.

**ACC-341 - RRP \$105.00**

## Threaded Live Centres

### For precise centering of bowls for hollowing out

Once you have turned outside of bowl including foot, attach chuck to Threaded Live Centre, move tailstock with Threaded Live Centre/Chuck assembly and grab foot while attached to lathe, unscrew chuck/bowl and screw onto the headstock, your bowl will be very precisely centred and ready to be hollowed out or cored. MT2. Available in most common thread sizes - *please specify thread required*

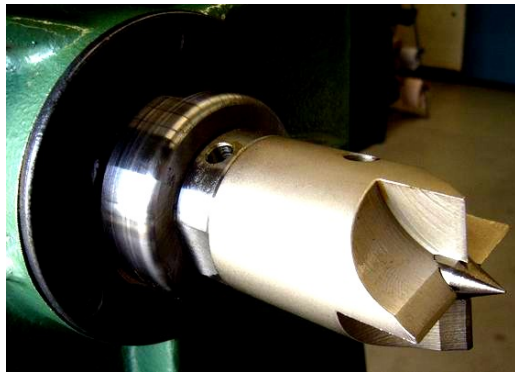

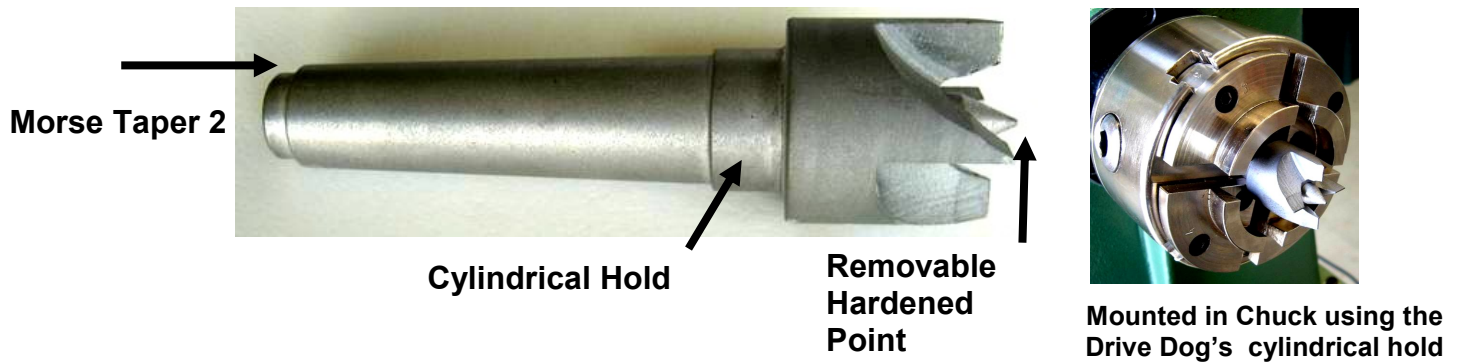

**ACC-330 Fixed Thread - RRP \$81.00**  
**ACC-335 Revolving Thread - RRP \$90.00**

## Heavy Duty 28.5mm Drive Dog

Can be mounted in two ways either with the Morse Taper directly into the lathe spindle or by using the cylindrical hold in a chuck to avoid damage to the Morse Taper. The point is hardened and removable. Available in Morse Taper 2 size

**Code: ACC-189 - RRP \$72.00**

## 50mm Drive Dog

Suitable for larger work. Comes with an insert available in a variety of thread sizes so can be used on most woodturning lathes. Point is hardened and removable.

**Code: ACC-200 - RRP \$94.00**

Includes insert - available in most lathe spindle thread sizes

Removable Hardened Point

## Safety Drive

For off-centre turning. Extra long 200mm. Morse Taper 2. Made from High Tensile Steel.

**ACC-199 - RRP \$68.00**

## Chuck Drive Dog

Available in pick-ups to suit either the small Nova Bonham or Vicmarc chucks

Held by chuck jaws for quick mounting and removal.

Chuck Drive Dog to suit Nova Bonham 100

| Code    | Description                               | RRP Price      |
|---------|---|----------------|
| ACC-190 | Chuck Drive Dog to suit Nova Bonham 100   | <b>\$52.00</b> |
| ACC-191 | Chuck Drive Dog to suit Vicmarc VM90/100  | <b>\$52.00</b> |
| ACC-192 | Chuck Drive Dog to suit Vicmarc VM120/140 | <b>\$52.00</b> |

Chuck Drive Dog to suit Vicmarc VM90/100

## Long Hole Drill

Long hole drill has replaceable drill tip. W-point HSS Drill. Stainless Steel Shaft, No Handle. 700mm. Can be used with the Vermec Hollow Live Centre - see Page 11. Replacement Threaded 10mm Drill Bit available.

**WTT-155 - Long Hole Drill -**

**RRP \$79.00**

**WTT-156 - Replacement 10mm Drill Bit - RRP \$31.00**

## Faceplate Rings

Available in three sizes—70mm, 90mm and 100mm

**CHU-550** 75mm suits Vicmarc VM90 & VM100 **RRP \$25.00**

**CHU-560** 100mm suits Vicmarc VM120 **RRP \$29.00**

**CHU-563** 90mm suit Nova **RRP \$29.00**

## Sanding Handle and Pads Set With Quick Release Spindle

Features a solid stainless steel handle with Duralon grip, a swivel head with 2 bearings, quick release spindle and the exchangeable velcro pads come in three sizes. Sanding Handle Set includes: handle, 50mm and 75mm pads with quick release spindles or items can be purchased separately.

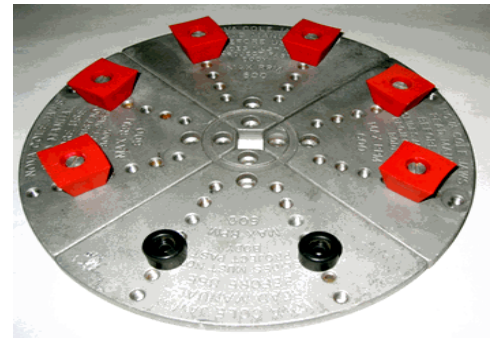

| Code           | Description                              | RRP Price       |
